

SAS Renew License Utility Location Changed

In SAS 9.2 and earlier releases, the SASRenew.exe file is located in the CORE\SASINST folder of the installation location. For example in SAS 9.2:

C:\Program Files\SAS\SAS Foundation\9.2\core\sasinst\SASrenew\SASRenew.exe.

However the same in SAS 9.3 has changed its location to

C:\Program Files\SASHome\SASRenewalUtility\9.3\SASRenew.exe

and to get to it follow:

Start > Program > SAS > Utilities > Renew SAS Software.
